

DRIVER DISTRACTION:

A message from Steve Martin, Superintendent of Motor Vehicles

Hello,

As an important partner in road safety, I want to personally bring to your attention, today, the release of a discussion paper and on Addressing the Problem of Driver Distraction and its Impacts to Road Safety in British Columbia. The discussion paper is now being released in order to engage the public in an informed discussion about this issue. The discussion paper includes an extensive review of international driver distraction research and some of the measures that have been taken by other jurisdictions in order to respond to this issue. We have also included a short list of questions to help frame the public discussion.
