New iDOT Tool: Work-Related Injury Claims

In partnership with WorkSafeBC, BCIRPU has expanded the iDOT to include *Work-Related Injury Claims* to better understand the patterns of work-related injuries and disease, and work-related deaths. Whether you're a worker, employer, or part of an industry group, you can use the data to help reduce injuries, and improve outcomes for disability management, recover-at-work, and return-to-work programs.
